Water Bills Put On Yearly Basis

Andover property owners will not receive water bills in April nor will there be any water meter readings this month.

This new policy was adopted at a recent meeting of the board of public works which decided that instead of sending out semi-annual accounts the bills for water will be issued only once a year.

Following this new policy the water bills hereafter will be sent out only in October.

Vale Men Discuss Church Merger

The Men's club of the Ballardvale Methodist church sponsored a meeting attended by men of the Congregational church last Friday night at which the merger of the two churches was discussed.

About 24 attended, including members of the committees of both churches which are negotiating the proposed plans for the merger. Douglas Dunbar, instructor at Phillips academy and president of the Andover Council of Churches was moderator.

The purpose of the meeting was two fold: 1, to inform the committees regarding the sentiment of the men of both churches; and 2, to clear up all questions of misunderstanding as to what is being planned and why.

Favor New West Site For Rt. 28

The majority of townspeople present at the Central elementary school Monday night favored the re-location of Route 28 through the westerly part of the town, a short distance further west of the tentative route proposed by the state department of public works.

This would bring it west of Lovejoy and Chandler roads instead of a few hundred feet easterly, and for the most part would pass through undeveloped land and dislocate fewer buildings than the former.

The public hearing on the subject, attended by large groups from West Andover, Ballardvale and Tewksbury, brought an estimated crowd of 225 to the school auditorium which seats 263.

Chairman J. Everett Collins of the board of selectmen opened the meeting and turned it over to Kirk R. Batcheller, chairman of the Planning board, who presided during the evening. Selectmen Sidney P. White and Stafford A. Lindsay were present together with Fred E. Cheever and Eugene A. Bernardin Jr., members of the Planning board, and Warren O. Peterson, clerk and town engineer.

Chairman Batcheller introduced John T. Blackwell of Boston, professional planning advisor, who was retained by the town to study the proposals. Mr. Blackwell earlier had been retained by the City of Lawrence to study the routes from the standpoint of its advantages.

Garden Club Plans Busy Program

A busy program has been planned for the next meeting of the Andover Garden club, which will be held Tuesday, Apr. 6. In the morning there will be a class in flower arranging in the form of a work shop. This will be held at Peabody House, and will be open to any member of the club who wishes to bring a container and flowers. This is a fine chance to gain actual experience in flower arranging with constructive criticism available.

The afternoon meeting will be at 2 p.m. in the Central Elementary school auditorium, with Mrs. Anston Howe Smith, the speaker. Her subject will be "Making the Most of Familiar Material." Tea will be served after the meeting with Mrs. Clifton Harrison, Mrs. William Bride, Mrs. Kenrick Butler and Mrs. Edwin Bramley pouring. The members of the Junior Garden club will assist with serving. Senior members may bring guests.

Mrs. Charles Hollis won first place in the Boston flower show with her arrangement "The Old Weaver's Shop." She used as background a Paisley shawl with a spinning wheel and shuttle. Her flowers were orange freezia, blue delphinium and croton leaves in an old wooden chalice.

WILL APPROVED

The will of Ida E. Hofmann of Andover st., Ballardvale, who died Jan. 15 has been approved in the Probate court at Salem. Charles H. Mumane of High st., Ballardvale was named executor. The estimated value of the estate is \$17,000.

FAVOR NEW WEST SITE FOR ROUTE 28

(Continued from Page One)

Mr. Blackwell, in view of recent hearings in Lawrence and North Andover where the westerly route was favored, gave most of his attention to the plan for the westerly location. He discussed it from four viewpoints; 1, that which would be more servicable to Andover; 2, the population growth; 3, the present and future land use; and 4, the present and future traffic flow.

He noted that the area covered by Precincts 1, 2 and 3 were almost fully developed, much of the new building in the past few years was in Precinct 6, and Precincts 4, 5 and 6 had the most room for future growth.

Among those who participated in the discussions from the floor were: Mitchell Johnson, Elmer O. Peterson, Emanuel DesRoche, Atty. Thomas D. Burns, Mrs. Irngard Hird, Chairman Joseph Whalen of the Tewksbury board of selectmen; Arthur Lewis, Austin Basso, Stanley Chmielecki, Mrs. Helen Robinson, Charles Whiteside, Alexander Henderson, Thomas Colgan, Harold Kent, William Perry, Mrs. Irene Greenwood and John Moran.

Chairman Whalen of the Tewksbury selectmen said his town favored a route that would take the new road through a portion of Tewksbury and follow through Andover along the abandoned right of way of the old B & M track, west of Haggett's pond.

At the close of the meeting a vote was taken on four proposals with the following results: 1, the easterly route, 34; 2, the westerly route shown on the state map, 30; 3, the westerly route proposed by the local selectmen and the Planning board a short distance west of the state's proposal, 111; and 4, the Tewksbury suggestion west of Haggett's, 25.

Chairman Batcheller noted that some persons had voted on more than one of the proposals.

The selectmen and Planning board held a short session afterward and prepared a statement to be sent to Commissioner John A. Volpe describing the route favored.

Remedy For Business Decline

Herbert Hoover finds no reason to fear another depression.

In a recent address he said: "I believe that due to scientific discovery, invention and improvement of production methods, our present industrial plants can support the present standard of living of our people and, beyond that, can produce some surpluses."

"It is these surpluses, plus some dehydrated optimism, that are worrying the situation today. And like everybody else, I have a remedy."

"My remedy follows the proposal of President Eisenhower — that if necessary we should reduce taxes in such a fashion as to increase the buying power of all the people, so that they can absorb the surpluses and thus lift the whole level of the standard of living another stage. The surest route to that end is to reduce government expenses and thus reduce taxes."

In other words, the key to good times is consumption. And the way to maintain and increase consumption is to let the people keep more of their earnings to buy things with.

The Third Concept

It was recently said: "Mass production and mass distribution are two modern phenomena on which American prosperity is founded. But to exploit these two concepts for the maximum benefit of the maximum number of people, a third concept must be added — mass investment."

In other words, industry can no longer rely on a relatively few people to finance expansion and progress. The needed money must come from millions of typical Americans who believe in our economic system and its future. And, most important of all, this is the way to bring about true economic democracy.

Happiness doesn't come from having everything given to you, but in having the ability to get it.

There is an old joke that has more truth than humor: "My teeth are fine. It's just that my gums are falling out."

Periodontal trouble affects almost 80 per cent of adults and increases with age. "Periodontal" comes from the Greek and Latin words meaning "around the teeth" and it refers to the gums, membrane and jawbone sockets in which teeth lie.

This tissue is firm, pink and fits snugly around the teeth, when healthy. In middle age, however, the tissue draws back from the neck of the teeth leaving spaces in which food particles and tartar can lodge. The gums become irritated, inflamed and bleed easily—a condition known as gingivitis.

This disease also affects younger people. The tartar that consistently forms on teeth can become heavy on the gum line and cause the same condition. If neglected, the more serious pyorrhea can result. This disease progresses to the tissue further down, attacks the bone and weakens the support of the tooth.

An extremely painful gum condition called "dry socket" sometimes follows a tooth extraction. "Dry socket" is the disintegration of the blood clot that forms in the newly emptied space, leaving the bone exposed. A Brooklyn, N.Y. dentist reported that this condition is caused by infection and can be prevented by using terramycin.

Of the terramycin-treated cases in his study 98.2 per cent required no post-operative care. Both gingivitis and pyorrhea can also be corrected by the dentist. Neglected, however, they can almost certainly lead to the loss of teeth and part of the jawbone.

Attend Convention

The physical education teachers of Punchard attended the Massachusetts Association of Physical Education, Health, and Recreation Convention at Wellesley high school recently. There was a short business meeting and election of officers. Discussion groups were held and there was a demonstration by the Wellesley high school gym team. Representatives from Punchard included, Joseph M. Normandy, Donald D. Dunn, Miss Frances Collins and Miss Jean Rizzo, all of the physical education department.

P. H. S. SPORT Baseball Candidates Out

A total of 55 candidates for Punchard's 1954 baseball squad reported to Coach Bob Collier who is grooming his charges for the April 20th opening at Tewksbury.

The first week the battery candidates worked out in the Case Memorial cage at Phillips academy. Last week they were joined by infield and outfield candidates.

With Joe Normandy, the new assistant varsity coach assisting, much attention was given the first few days to batting practice and a little time was also devoted to infield practice.

Pitchers and catchers are still working up into form so that they will be able to show some of their stuff in the few practice games which Coach Collier is arranging for the next couple of weeks.

Among the candidates are: Capt. Paul Ostrowski, George Adams, Tommy Pearl, Nick Mulick, Bill Mooney, Paul Whitley, Dick Lumenello, Bob Leete, Steve O'Connor, Phil Spinney, John Murray, Bill Fisher, Tom Andrews, Alec Thompson, Jack Davis, Jack Twigg, Bob Grudzinski, Cliff Sharp, Dick Nolin, Sumner Davis, Art Walsh, Peter Anderson, Larry Lynch, Bill Vickers, George Durant, Timmy Floyd, Jack Carver, Bob Lefebvre, Dick Lawrence, Frank Quint, Ralph Anderson, Dennis Barous, Tom Callahan, Francis Leone, Bert Damon, Charles Dalton, Gus Walsh, Carl Swenson, Bob Smith, Charles Bowman, Jack Reilly, Dave Best, Fred Polgreen, Fred Dwyer, Dave Belka, Reginald Wood and Bill McCollom.

NEW BOOKS

The Best Of Two Worlds, Krutch.

A quiet, fascinating book that tells how to find the best of life in either town or country in New England, with its changing seasons, each one with its own colors, treasures and excitements. The author shows a humorous disgust with the machine world and a strong support of the world of nature. Good read-aloud!

Some Enchanted Evenings, Taylor.

A thrilling story of the modern team of Rogers and Hammerstein, including the story of Lorenz Hart, the brilliant young lyric writer who was the first to collaborate with Rogers and whose place was taken by Hammerstein. A fine picture of our modern "Gilbert and Sullivan" pair.

Ben Jonson Of Westminster, Chute.

The author of "Shakespeare of London," Marchete Chute, turns her brilliant, biographical talent on Ben Jonson, the most ardent crusader for the true spirit of the classics in the history of English drama. The literary, religious, political and educational world of his day all come to life in this study.

For the purpose of discussion the question was posed at the beginning of the meeting, "Should the two churches in Ballardvale unite?"

The committee chairmen indicated that they were going to make a particular effort to seek out those in both churches who may be opposed to the idea of
